Wijdeven is a modern, dynamic and technology driven company with an experience of more than 70 years. Wijdeven is competent in areas of engineering, production and sales of transformers, coils, magnet assy's and electro mechanics.

Wijdeven has more than 100 well motivated employees divided over two ISO-9001 certified facilities in Oirschot and Ter Apel. Besides our own facilities in The Netherlands Wijdeven has co-activities in Eastern Europe and Far East.

We are known for: short time to market, innovative and cost efficient. Focus markets are medical, machine equipment, semicon and energy.

Wijdeven will present items of the business units Power and Motion e.g. transformers, coils, linear motors, voice coil actuators, direct drive motors, magnet assy's and gravity compensators.
